ON-ROAD HEAVY DUTY VEHICLES

SECAT - Sacramento Emergency Clean Air and Transportation Program: The Sacramento Area Council of Governments (SACOG) requests applications for grants under the Sacramento Emergency Clean Air and Transportation Program (the SECAT Program). This program was created by California Assembly Bill (AB) 2511 to help assure that the Sacramento region remains in conformity with its State Implementation Plan (SIP) for air quality attainment. A total of \$70 million in funding (\$20,000,000 in CMAQ funds and \$50,000,000 in state funds) were allocated for grants under the SECAT program to offset the costs of projects that reduce oxides of nitrogen (NOx) emissions from on-road vehicles operating in the Sacramento Federal Ozone Non-Attainment Area (Non-Attainment Area). To date, more than \$34.3 million has been spent. Another several million dollars is being provided during 2007 & 2008 to fund this program.

Eligible types of projects include the following:

- i. Purchase of new heavy duty low or zero-emitting vehicles;
- ii. Re-powering of existing high-emitting diesel vehicles with new, lower-emitting engines;
- iii. Retrofit of existing heavy-duty vehicles with after treatment systems to reduce NOx;
- iv. Use of "cleaner" diesel fuel formulations and/or diesel emulsion fuels in place of California diesel fuel; and
- v. Any other verifiable, enforceable, and cost-effective technology for reducing NOx emissions from heavy-duty on-road vehicles.
- vi. Fleet Modernization

Eligible vehicles include heavy-duty on-road trucks, such as refuse trucks, transit and school buses. For more information contact Mike Neuenburg at the Sacramento Metropolitan AQMD at (916) 874-1676.

ON AND OFF ROAD HEAVY DUTY VEHICLES AND EQUIPMENT

HEAVY DUTY LOW EMISSION VEHICLE INCENTIVE PROGRAM: This program is designed to promote the introduction of low-emission technologies into the region for both on- and off-road heavy duty vehicles and is based on the California Air Resources Board's (CARB) "**Carl Moyer Memorial Air Quality Standards Attainment Program.**" Contact Gary Bailey at the Sacramento Metropolitan Air Quality Management District at (916) 874-4893.

ARB LOW EMISSION CONSTRUCTION EQUIPMENT INCENTIVE PROGRAM FOR PUBLIC AGENCIES

\$25 million has been allocated to help purchase, repower, or retrofit construction equipment owned by public agencies. For detailed information and for application deadlines go www.arb.ca.gov/msprog/ordiesel/incentive.htm or contact Johanna Levine at jlevine@arb.ca.gov or 916-324-6971. *Hurry, this money won't last long!*
